

Mihir P Mehta

Department of Computer Science
University of Texas at Austin

+1 512-952-0104
www.cs.utexas.edu/~mihir

- Education**
- Ph.D., Computer Science**, University of Texas at Austin. (2014 - present)
GPA: 3.3/4 (Spring 2018)
B.Tech., Computer Science and Engineering, Indian Institute of Technology (IIT) Delhi. (2009 - 2013)
GPA: 7.9/10
Exchange semester, Ecole des Mines, Saint-Etienne. (2011)
- Professional Experience**
- Research Intern** at Oracle Corp., Belmont, CA, USA. (2018)
- Completed a code proof to certify the correctness of a highly optimised assembly language program.
 - Contributed to a timing analysis of this program, to ensure the avoidance of race conditions.
 - Studied the potential use of the TLAPS theorem prover for distributed systems, and created some preliminary internal documentation.
- Research Intern** at Apple Computer, Inc., Austin, TX, USA. (2017)
- Used model checking tools towards verifying Apple's hardware microarchitectures
 - Developed proofs of correctness of hardware components with respect to specifications, with code changes where necessary.
- Research Intern** at Intel Corporation, Austin, TX, USA. (2015)
- Built a Pintool to dynamically analyse executables.
 - Augmented the analysis with fine-grained information obtained from static analysis techniques.
- Software Engineer** at Samsung Research Institute, Noida, India. (2013-2014)
- Optimised the Linux kernel for Samsung's Android devices.
 - Improved core components of the Linux virtual memory subsystem.
- Research Experience**
- Filesystem modelling for FAT32** with Professor William R. Cook, CS department, UT Austin. (2016-present)
- Developed a binary-compatible executable model for the FAT32 file system.
 - Used the model as a basis for separation-based reasoning about filesystems and file-manipulating programs with ACL2.
 - Published papers on this work in the proceedings of ACL2-2018 and ITP-2019.
- Program verification in object-oriented languages** with Professors Isil Dillig and Thomas Dillig, CS department, UT Austin. (2014-2015)
- Developed a prototype verifier based on Hoare logic and weakest pre-conditions.
 - Used the Soot compiler framework to generate verification conditions and the Z3 theorem prover to discharge them.
 - Generated example inputs demonstrating bugs in several test programs.
- Algorithms for bisimilarity** with Professor S Arun Kumar, CSE Department, IIT Delhi (2012-2013)
- Conceptualised and implemented a toolkit for verifying bisimilarity and other properties of timed automata and labelled transition systems.
 - Improved an algorithm for generating a zone graph from a timed automaton.

Publications	<p>Formalising Filesystems in the ACL2 Theorem Prover: an Application to FAT32. In: <i>Proceedings of the 15th International Workshop on the ACL2 Theorem Prover and Its Applications, Austin, Texas, USA, November 5-6, 2018. Electronic Proceedings in Theoretical Computer Science</i>. Matt Kaufmann and Shilpi Goel, editors. Vol. 280, pp. 18-29, 2018. URL https://cgi.cse.unsw.edu.au/~eptcs/paper.cgi?ACL22018.2.</p> <p>Binary-Compatible Verification of Filesystems with ACL2. In: <i>10th International Conference on Interactive Theorem Proving (ITP 2019) (Leibniz International Proceedings in Informatics (LIPIcs))</i>, John Harrison, John O’Leary, and Andrew Tolmach (Eds.), Vol. 141. Schloss Dagstuhl-Leibniz-Zentrum fuer Informatik, Dagstuhl, Germany, 25:1-25:18. URL https://doi.org/10.4230/LIPIcs.ITP.2019.25.</p>
Coursework (selected graduate courses)	<p><u>UT Austin</u>: Automated Logical Reasoning, Introduction to Mathematical Logic, Formal Verification and Semantics, Automatic Verification of Software, Numerical Linear Algebra, Dependable Computing Systems, Advanced Operating Systems, Recursion and Induction.</p> <p><u>IIT Delhi</u>: Compiler Design, Theory of Computation, Numerical Optimisation.</p>
Teaching assistantships (UT Austin)	<p><u>Graduate courses</u>:</p> <p>CS386L Programming Languages (Fall 2016, Spring 2020)</p> <p>Convex Optimization (Fall 2019)</p> <p><u>Undergraduate Courses</u>:</p> <p>CS439N Operating Systems (Fall 2015, Spring 2016)</p> <p>CS340D Debugging and Verifying Programs (Spring 2018)</p> <p>CS392F Automated Software Design (Spring 2019)</p>
Technical Skills	<p><u>Theorem provers</u>: ACL2, Agda, Coq, TLAPS.</p> <p><u>Programming languages</u>: Functional languages (OCaml, SML), logic programming languages (Prolog), hardware description languages (VHDL, Verilog).</p> <p><u>Operating systems</u>: GNU/Linux (kernel and application development).</p> <p><u>Compiler frameworks</u>: Soot (Java), LLVM (C++).</p> <p><u>Others</u>: Xilinx, Matlab, PostgreSQL.</p>
Scholastic Achievements	<ul style="list-style-type: none"> • Awarded the UT Austin Graduate School’s Recruitment Fellowship. (2014-2017) • All India Rank 138 (out of 400000), Joint Entrance Examination (IIT-JEE). (2009) • Secured All India Rank 29 in the All India Engineering Entrance Examination (AIEEE) among 1000000 candidates. (2009) • Scored 99 percentile in Verbal and Analytical Reasoning, GRE. (2012)
Others	<p><u>Languages</u>: English, French, Gujarati, Hindi.</p>
